

Postgraduate Grading Scales

1. There are three grading methods for postgraduate courses: the 0-100 point scale system, the A-D grading scale system (A, B, C, D) and the Pass-Fail grading system.

2. GPA Calculation Formula:

Course Weighted Points = Grade points x Course Credits

GPA = \sum Course Weighted Points / \sum Course Credits

Notes: The Pass-Fail courses are excluded from the calculation of GPA.
